

Hospice Cuppa Answers

1: A

Coffee beans are actually the pits of berries. The coffee berries, sometimes called coffee cherries, are an edible fruit that have coffee beans inside. They are only called beans because of their resemblance to beans

2: B

Coffee tends to grow better at equatorial climates. Hawaii has an optimal climate for harvesting java beans

3: A

British Ceylon, known as Ceylon, was a British Crown colony between 1815 and 1948 and is now the nation of Sri Lanka

4: B

Tea replaced gin as Britain's most popular beverage. Mix gin and cold tea, flavor with little lemon rind, and you'll get a great summer cocktail

5: C

1908: The inventor, Thomas Sullivan, decided it was cheaper to send small samples to potential customers in silk bags instead of boxes. The recipients believed they were meant to be dunked, and soon Sullivan was flooded with orders for his tea bags!

6: A

Host, guest and stranger

7: C

1979: The first Hospice in New Zealand was Mary Potter at Calvary Hospital in Wellington.

8: D

Hospice Community Nurses are expected to make over 150,000 home visits throughout NZ during 2014

9: C

Over 14,000 New Zealanders will receive end-of-life care from their local Hospices during 2014. But it doesn't stop there, as Hospice staff will also support each patient's family members before and after their death.
